Monthly Bulletin of Unemployment and Sickness Benefits Statistics
October, 1945

This summary issued by the Acting Commonwealth Statistician covers the first four months' operations of the Unemployment and Sickness Benefits Act, 1944, which came into operation on 1st July, 1945.

The Act provides for the payment of benefit to persons whose normal earnings have been interrupted through unemployment or temporary incapacity. The Act also provides a third class of benefit - designated Special Benefit - which gives a measure of assistance to those persons who, on account of some special circumstance, cannot comply with the statutory requirements relating to unemployment or sickness benefit, and who are prevented from earning a livelihood and are in need.

The rate of benefit per week is 25 shillings for a married person or an unmarried adult, plus 20 shillings for a dependent spouse and 5 shillings if the claimant has the custody, care and control of one or more children under 16 years of age. Thus the maximum benefit is £2.10s. per week. For unmarried juveniles the rate of benefit is 15 shillings if under 18 years and 20 shillings if 18 and under 21 years.

A claimant is allowed a certain income without the rate of benefit being affected. Beyond this allowable amount the rate is reduced by the amount of the excess income.

The numbers of recipients of benefit do not embrace the total unemployment and sickness in the community. Unemployment or sickness of less than seven days duration is not covered due to the provision in the Act of a "waiting period" of this length of time during which no benefit is payable. Permanent incapacity is not included as this is covered by the Invalid and Old Age Pensions Act. The application of the "means test" excludes another group from benefit. Some persons entitled to benefit may not yet be aware of the provisions of the Act.

During the four months, July to October, 1945, 12,340 claims were admitted, comprising 10,770 sickness, 1,511 unemployment and 59 special benefits, whilst 6,365 of these benefits were discontinued (5,623 sickness, 705 unemployment and 7 special), leaving 5,975 persons in receipt of benefit at the end of October, 1945, (5,117 sickness, 806 unemployment and 52 special).

Claims admitted during October, 1945, amounted to 3,516 (2,910 sickness, 592 unemployment and 14 special), whilst 2,356 benefits were discontinued during the same period (2,086 sickness, 267 unemployment and 3 special).

The total number of benefits granted and discontinued during the period 1st July to 27th October, 1945, and beneficiaries remaining on benefit at 27th October, 1945, in each class of benefit is shown in the following table:-
